

### **Service Animals Questionnaire**

To help us determine whether or not your pet qualifies as a service animal, please complete the questions below and return via email to the Building Management Office.

1. Do you need the animal because of a disability?
2. What work or tasks has the animal been trained to perform?

Based on your response, if your pet does not qualify as a service animal, you will be receiving a Waiver, Release and Indemnification Agreement; a portion to be completed by you and the other portion to be completed by the Landlord. An executed version will be returned for your files.
